Questions or Comments for the Town of Plainfield	I do not appreciate the decision to cut down mature trees and remove established plant life for this development. These trees and natural areas are an important part of our community and provide beauty, privacy, and character to the neighborhood. Many of us also live in two-story homes, which means this building will be highly visible from our second-story windows. The development will significantly change the view and the overall character of the surrounding neighborhood as well our potential resale values. I strongly urge you to reconsider the amount of mature vegetation being removed and to take greater consideration of the existing residents who will be directly impacted by this development.
