Subject: Integrity Warehouse

I submitted a comment on 9/29. Another resident of Blackthorne did so yesterday too. Her comment appeared immediately. Mine didn't.

The owner of the business obviously moved into a space where there wasn't enough room for expansion without damage to a residential neighborhood and to the natural environment. In view of the current economic downturn, is the Town of Plainfield wise to promote the type of manufacturing (plastics) that may run into headwinds in the near future?

Lauren,

Good to hear from you.

We received your comment yesterday afternoon and I will have it on the project page today. The other comment you mentioned was received Monday evening and posted Tuesday morning. Please accept my apologies for any delay as this is not an automated process.

Did you want the comment from this e-mail added to your comment from yesterday afternoon? It was not sent through the comments link, so I would like to double check to ensure your intent instead of assuming.

Please let me know and if you have any questions, please feel free to contact me at your convenience.
